

HUMANE WAY "EASY-UP" LIVE ANIMAL TRAP

QUICK ASSEMBLY INSTRUCTIONS:

1. Place folded trap on a stable flat surface.
2. Unfold trap frame into its erect form.
3. Pull rear frame panel into position using the handle on the rear panel until four frame clips engage.
4. Twist the two top frame hooks into place and press tightly around bar to finish securing rear panel.
5. Pull front door frame firmly into fully closed position, engaging the four frame clips.
6. Twist the two top frame hooks into place to finish securing the front door panel.
7. Finish assembly by connecting the J-hook and the end of the loop hook end or the trip plate rod.
8. Trap is ready to bait and set by engaging the remaining end of the J-hook loop to the horizontal top door rod.
